CHANNEL ANNOUNCEMENT:
New Product Upgrade
from Infragistics®:
Infragistics JSuite 7.2

JSuite 7.2 is a comprehensive set of Swing components for quickly building commercial class user interfaces for Java and J2EE applications. JSuite includes DataTables, charts, editors, trees, navigation, explorer UIs and more! Our philosophy is centered on consistency, integration, and support. See how our components let you build great applications in less time while increasing the overall quality of your applications. Our JSuite controls are rigorously developed and tested, and fully supported.

 JSuite 7.2 – The Most Comprehensive Set of Swing Components for building great Java application UIs.
